

IDC Information Brochure 2010

Dear IDC Candidate,

Thank you very much for your interest in becoming a PADI Instructor or to continue your diving education with Emperor Scuba Schools. We would very much like to support you in your wish to start or enhance your professional diving career.

Our 'Career Development Brochure' sets out the already well known and successful 'RED SEA', 'GO PRO' and 'IDC' career programmes and value packs, which can be downloaded from our website www.emperordivers.com. It provides detailed information about the various courses and packages.

Here you will find the IDC Schedule for the next 12 months. Along with it there are a few more tips and suggestions about a solid preparation. Also for your convenience there is a checklist of what to bring.

Regarding the required material shown in this brochure, please be informed that all PADI materials mentioned are required to be owned by each instructor candidate by PADI Standards. The value packs offered in our 'Career Development Brochure', have been designed exactly for this purpose, and will greatly reduce the weight you have to carry, as you can receive your materials in resort.

If you already have most of the required materials, but still need some training materials and you wish to order from us, please check our Price List and Material Order Form. We can provide the material here at the start of the respective course or we can send it to your home address for advance preparation when arranged beforehand. Please ensure sufficient time is allowed for study prior to the start of the IDC. Also, have a good look at the Instructor Value Packages in our Career Development Brochure. It's worth it! In this brochure you will find the following:

-  Time Tables for Emperor Scuba Schools' IDCs for the next year
-  Beneficial Preparation for the IDC
-  Price List and Material Order Form
-  Registration Form

Please enjoy reading this and do not hesitate to contact us any time if you need more detailed or additional information.

Preparation Day

The day before the IDC starts, we offer a free prep day. This day is used to practice your skills in the pool, check your diving theory knowledge and answer your questions about the IDC.

Course Language

The courses are normally conducted in English or Arabic, but can be made available in a variety of languages. If you are not fluent in the above two languages please enquire before applying.

General Info

Our Course Directors and IDC Staff Instructors conduct IDC programmes twelve times a year. In addition Instructor continuing education programmes are available in Hurghada at any time. Due to the high quality instruction and our low student-to-instructor ratios, our instructor candidates traditionally gain above average scores in the IE in all areas of evaluation.

The Instructor Development Course (IDC) consists of two parts:

- 1) The Assistant Instructor (AI) course and
- 2) The Open Water Scuba Instructor (OWSI) programme.

The combination of the 4-day AI course and the 5-day OWSI programme makes up the continuous 9-day IDC. It is possible to complete the AI course and then complete the OWSI at a later time. This might be interesting for the candidate who doesn't have the time to complete the full IDC, or feels the need to have more diving experience before completing the OWSI with us. It is also possible for those AI candidates who have already completed the new AI course at another facility to enrol in our OWSI programme.

Instructors from other training organizations may qualify for the OWSI part depending on their teaching experience.

Prerequisites

Assistant Instructor Course/Instructor Development Course

- Be a certified PADI Divemaster or hold a leadership level certification with another recreational diver training organization
- Have a medical clearance, signed by a physician, not older than 12 months.
- Submit verification of CPR and First Aid training within the past 24 months.
- Show proof of 60 dives and be certified at least six months.
- Completion of all Knowledge Reviews from the Instructor Candidate Workbook.

Open Water Scuba Instructor Programme

- Have completed the new PADI AI course or be an instructor with a recognized training organization for at least 6 months (PADI list of equivalencies).
- Have a medical clearance, signed by a physician, not older than 12 months.
- Submit verification of CPR and first aid training within the past 24 months.
- Show proof of 60 dives and be certified at least six months.
- Completion of all Knowledge Reviews from the Instructor Candidate Workbook.

Instructor Examination

- Have successfully completed an IDC within the last 12 months.
- Show proof of 100 dives and be certified at least six months.
- Submit a medical completed and signed by a physician within the last 12 months.

Emergency First Response and Care for Children Instructor Training Course

- Have completed the EFR Primary and Secondary Care course and Care for Children course (or other approved CPR and first aid courses for adults and children) within the past 24 months.
- You can do this course even as Divemaster, Rescue Diver or less

Emergency First Response Care for Children Instructor Upgrade

- Be a current Emergency First Response Instructor.
- Have completed the EFR Care for Children course within the past 24 months.

Emergency Oxygen Provider Instructor Training Course

- Be a certified and active diving instructor or have successfully completed a PADI IE.
- Be a current Emergency Oxygen Provider (not older than 24 months).
- Have current training in CPR within the past 24 months or be an active EFR Instructor.
- Have documentation of first aid training.

Specialty Instructor/Master Scuba Diver Trainer Prep (5 Instructor Specialties)

- Be a renewed PADI AI or Instructor or have successfully completed an IDC or OWSI within the last 12 months – details on request.

IDC Staff Instructor Course

- Be a current PADI Master Scuba Diver Trainer.

Fees / Costs

All course fees quoted are in Euro but may be paid in any international currency at the prevailing rate of exchange. A deposit is required at the time you reserve your course space. Please check the Registration Form for the respective amount. The balance of course fees is payable one month before commencement of the course. Prices do not include PADI training materials or application fees. These have to be purchased separately. Please contact us for further details.

Any payments made locally for materials or rental equipment are subject to a 10% sales tax charge.

Required PADI Materials: (to be owned by the candidate according to PADI Standards)

- ✓ PADI Instructor Manual (if CD ROM, bring the original disc!)
- ✓ Instructor Candidate Workbook (take good care of the PADI sticker!)
- ✓ PADI Open Water Diver Manual
- ✓ Open Water Diver Quizzes and Exams booklet
- ✓ PADI Adventures in Diving Manual
- ✓ PADI Rescue Diver Manual (new course)
- ✓ Rescue Diver Final Exam booklet (new course)
- ✓ PADI Divemaster Manual
- ✓ Divemaster Final Exams booklet
- ✓ Divemaster Slates
- ✓ Instructor Slates (Aquatic Cue Cards) for Open Water Diver (confined and open water training), Adventures in Diving, Rescue Diver and Discover Scuba Diving

- ✓ Peak Performance Buoyancy Specialty Instructor Outline
- ✓ Project AWARE Specialty Instructor Outline
- ✓ AWARE – Coral Reef Conservation Specialty Instructor Outline
- ✓ Confined Water Lesson Preparation Slate
- ✓ Open Water Training Dive Lesson Planning Slate
- ✓ Diving Knowledge Workbook
- ✓ Encyclopaedia of Recreational Diving
- ✓ RDP – all three versions (Table, Wheel and eRDP including associated Instructions for Use booklets)

Other required items:

- ✓ Pocket Mask
- ✓ Medical Examination Form signed by a physician (max. 12 months old)
- ✓ Verification of CPR and first aid training (max. 24 months old)
- ✓ Certification cards for OW, AOW, Rescue, EFR, DM or equivalent
- ✓ Diving logbook with minimum 100 dives signed off
- ✓ 2 passport size photographs
- ✓ Calculator (mobile phones are NOT allowed in the IE)
- ✓ Personal open water diving equipment (ref. Instructor Manual) incl. compass, diving watch, knife or diver's tool, emergency signalling devices (whistle, surface marker buoy, etc)

Recommended Materials: (needed for self study)

- ✓ The Best of The Undersea Journal***
- ✓ The Law and The Diving Professional***
- ✓ The Business of Diving***
- ✓ Children and Scuba Diving***

*** only if English materials are used. For other languages you need the

- ✓ Prep Booklet – The Best of the Undersea Journal/Translations

Check our all inclusive value packages inside this brochure. More detailed information about our whole range of PADI courses is available in our Career Development Curriculum Brochure on our website.

NOTE: Course application and certification fees payable to PADI are not included in the above prices.

IDC application fee: Sterling £ 82.00* (plus VAT if applicable) for PADI International Ltd. members

IE fee: Sterling £ 335.00* (plus VAT if applicable)

Other application fees are dependent on the course.

Prices are subject to change without notice. The prices given are for 2010.

Beneficial Preparation for the PADI Instructor Development Course (IDC)

The PADI IDC is a very intensive course, which prepares you for the Instructor Examination (IE). It also covers aspects beyond the IE that will assist you in becoming a knowledgeable practicing professional.

We are a very experienced Training Facility with more than 800 successful IE-Candidates. Over the years we noticed that participants had problems when they arrived here with insufficient preparation. They had to work harder during the IDC than other candidates because they had to learn things which they should have known already. As a result task loading and a higher degree of stress followed.

The question that rises is: **What is a good preparation?**

To answer this question let's have a look at the **IE areas of evaluation**:

- | | |
|--|---|
| 1. <u>Written Exams in:</u> | a) PADI System, Standards and Procedures
b) Five Dive Theory Sections: see below |
| 2. <u>Knowledge Development Presentations</u> | |
| 3. <u>Confined Water Teaching Presentations</u>
<u>Confined Water Skill Circuit</u> | |
| 4. <u>Open Water Teaching Presentations</u>
<u>Open Water Rescue Demonstration</u> | (Ref.: Rescue Diver Course, Exercise 7) |
| 5. <u>General Skills</u> | |

1a) PADI System, Standards and Procedures

This part will be covered during the IDC. Do not try to learn all the Standards there are. That is not necessary at all. Your preparation will be in having an **updated Instructor Manual**. Contact us for update details or check the PADI Training Bulletins. You should know which sections the Instructor Manual contains and how to find them.

1b) Five Dive Theory Sections

Prepare your diving knowledge. You will be evaluated in five topics: **Physics, Physiology, Equipment, Skills and Environment and the Recreational Dive Planner (RDP)**, the Table, the Wheel (not after 1/1/2009), and now also the eRDP/ML.

One big misconception of some candidates is that they will learn these topics within the IDC. This is basically wrong. All these dive theory subjects have previously been covered in the Divemaster programme. It is not part of the IDC curriculum. We will test that particular knowledge, we provide feedback and our Staff also gives remediation. However, do not expect to be taught in these areas in its entirety.

A very good preparation is the **Diving Knowledge Workbook**, which you should be familiar with from your Divemaster training. If you are able to give the right answers and explain why the other options are wrong, there is nothing you have to worry about in the IE. Back up your knowledge with the Encyclopaedia, but do not try to learn the whole book word for word!

E-Mail: Reservations@emperordivers.com
UK Phone: 0700 594 6937 Egypt Phone Reservations: ++20 122340 995
Fax: ++20 69 360 17 35

2) Knowledge Development Presentations

Teaching Presentations will be covered in detail during the Assistant Instructor course and practiced more in the Open Water Instructor programme. It helps to be familiar with the Student Manuals and Instructor Outlines of the Open Water Diver course, the Adventures in Diving programme, the new Rescue Diver course and the Divemaster course.

3a) Confined Water Teaching Presentations

During the Assistant Instructor course you will learn how to teach effectively in confined water. During the IE you will be asked to present one skill from the Open Water Diver course. Watching the **PADI Open Water Diver video** would be helpful to refresh yourself. Also rescue skills will now be included in the IDC and IE; therefore it would be a good idea to review the **Rescue Diver DVD**.

3b) Confined Water Skill Circuit

Review the confined water training skills of the Open Water Diver course.

A helpful tool is the **PADI Open Water Diver video**. There you can see these skills in demonstration quality. The same Evaluation Criteria are used as with your Divemaster course.

4a) Open Water Teaching Presentations

Be familiar with the Open Water Diver and new Rescue Diver course in particular. Skills from some Adventure Dives are now included in the IDC and IE as well, particularly Search and Recovery (knot tying and lift bag use), Underwater Navigation and Peak Performance Buoyancy.

4b) Open Water Rescue Demonstration

Especially if it has been a while since your Rescue Diver and/or Divemaster course, it will be necessary to review parts of the Rescue Diver course. You will have to demonstrate proficiency in Rescue Exercise 7 'Unresponsive Diver at the Surface'. A good idea would be to watch the **video** and practice again. Proficiency in mouth-to-mouth and mouth-to-pocket mask ventilation is expected and will be evaluated in the IE.

5) General Skills

Don't miss the opportunity to go diving whenever possible to improve your general diving skills.

6) Swim Test

One evaluation part is the 800 m snorkel swim. Although there are generally no problems, it requires a certain degree of fitness. Obviously swimming with mask, snorkel and fins, using your fins only and face down, is the ideal preparation. The swim test is already completed during the IDC.

These are suggestions, which arise out of experience and should be followed.

Of course you can also be successful without completing all these suggested training preparations. It might be a bit harder, though. The more preparation you can do in advance, the easier and more fun the IDC will be for you!

HURGHADA

New Touristic Harbour

El Mina

Hurghada, Red Sea, Egypt

PLEASE NOTE:

The completion of all Knowledge Reviews from the Candidate Workbook prior to the commencement of the IDC is a prerequisite for the course.

In order to do so it is necessary to have the following materials:

PADI Instructor Manual
Best of the Undersea Journal
Business of Diving
Law and the Diving Professional
Children and Scuba Diving

If you have your materials in Dutch, French, German or Italian, the Knowledge Reviews are not found in the Candidate Workbook, but in the extra "Best of the Undersea Journal and Study Preparation" booklet which contains translations of parts of the above books, as they are not translated.

However we do offer assistance, if necessary. We are happy to offer a 2-day preparation course prior to the start of the IDC. The price is listed on page 4. These two days can also be used for skills, diving theory practice and for a review of the PADI courses which makes it an interesting choice for divers who are coming from training organisations other than PADI. It is a good idea to do this prep course a few days before the IDC starts, so you have some time to keep practicing and complete your home study.

SPECIAL OFFER:

We offer a preparation (prep) day right ahead of the IDC at **no additional cost** in order to practice diving theory and skill demonstrations! Candidates who will book the prep course will therefore have three days of preparation in order to get ready for the IDC.

INTERNSHIP/WORK EXPERIENCE PROGRAMME:

Our Free Internship will give you the possibility to get working experience in guiding certified divers and training student divers. You have the opportunity of working first-hand with students in different diving courses and on the dive boats along-side our experienced professional instructors in a busy Red Sea resort location catering for many different dive environments. You will also have the opportunity to learn the day-to-day running of a busy, top-class resort dive centre in the Red Sea.

This work experience programme will enable you to gain practical experience in guiding and teaching, learn different methods from our instructors and get to know the dive sites, all of which will make it easier for you to find work in the diving industry. You can start your internship after completion of your IDC for the duration of one month. Should you have already completed an Internship with us before, following your Dive Master course, then there will a nominal fee of 150 Euro, otherwise it is free.

There are no additional charges for the boat dives if you are helping and it is part of your internship except park fees, requested tanks and lunch. If you are diving for fun, then extra charges may be incurred at the discretion of the Dive Centre Manager. No salary, commission or living expenses are included. For more information please download our 'Career Development Brochure' from our website or contact us directly.

You will find success in the diving industry quicker if you bring the right professional attitude, if you can offer a good variety of courses and if you bring some experience. We can help you achieve your goals with our experience, continuing education and Internship/work experience programmes.
